

# Frequently Asked Questions

## **How much does the basic test cost?**

For 2017, the \$15 fee is waived for you or your spouse, if you subscribe to the BCBS State Savings Plan or MUSC Health Plan and have not already had a Worksite Screening in the same calendar year.

\$47 if this is your second Worksite Screening within the same calendar year (January – December).

\$47 if Tricare or Medicare is your primary insurance.

\$47 if you do not subscribe to BCBS State Health Plan (Savings) or MUSC Health Plan.

## **If I already participated in the Worksite Screening in the same calendar year (January to December), can I participate again?**

Yes, but the SC Employee Insurance Plan only covers one Worksite Screening in each calendar year, so you would have to pay \$47 for the second time you took part in the screening.

## **Does my participation in the Worksite Screening affect the coverage of other lab tests my health care provider might order in his/her office?**

No

## **Can my spouse participate in the MUSC Worksite Screening?**

Yes, spouses of MUSC employees can take part in the Worksite Screening. For 2017, the \$15 fee will be waived for the first screening in the calendar year, if the spouse is covered by BCBS State Savings Plan or MUSC Health Plan.

## **Can my dependents who are at least 18 years old participate in the screening?**

No.

## **How will I receive my report?**

Your report will be sent to you about 2 weeks after the screening by way of the US Postal Service. Efforts are underway to have results transferred to MUSC My Chart.

## **How do I pay for my screening?**

You pay for your screening when you arrive at your appointment with either credit card (via square credit card reader) cash or check. If you pay with cash, please have exact change.

## **Who do I write my check out to?**

Write your check to Doctors Care.

## **Do I need to fast for the tests?**

Yes, you need to fast 10-12 hours before your appointment time (you may have water and any of your required medications). Drinking plenty of water helps with the blood draw.

## **Do I need to bring anything with me on the day of screening?**

Unless MUSC Employee Wellness tells you otherwise, you will need to bring your Insurance card ID number for claim filing.

**How long does the screening take?**

About 15 to 30 minutes.

**Are my test results sent to my health care provider or available in the MUSC record system?**

Your records are sent only to you in a sealed envelope via US mail. It is very important that you share the results with your health care provider so any necessary follow up can be addressed and the results can also become part of your medical record if you so desire. Efforts are underway to have this information available in MyChart later this year.
